Learnings

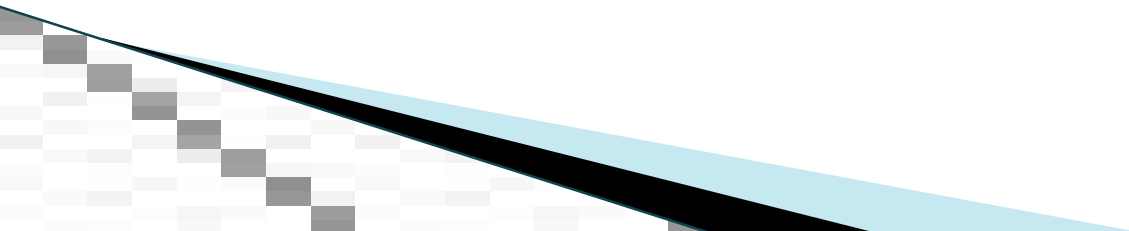

- ▶ Business as usual approach does not work
 - ▶ Large projects & programs of work require thorough planning in order to optimize delivery
 - ▶ Large project processes do not translate well into Small projects
 - ▶ High profile, public projects require dedicated resources to deliver with minimal delays
- 

Learnings

- ▶ Rote learning increases productivity for ‘standard’ projects only. Blinkering effect must be recognised and managed.
- ▶ Governance plays an important part of pro-active management
- ▶ Intelligent rewarding of performance is required to create/maintain the ‘one-team’ attitude

Personal Development

- ▶ Continual learning is a critical part of development
- ▶ Challenges provide opportunities for learning
- ▶ Everyone has a voice
- ▶ The gap between engineering design & field is wide and requires narrowing (there is great value to be gained by doing this)
